Overview of MARRC

The Manitoba Association for Resource Recovery Corp. (MARRC) is a non-profit corporation established in 1997 by manufacturers and marketers of lubricating products in Manitoba. Its mandate is to develop, implement and administer a cost-effective, sustainable, user-financed, province-wide stewardship program for used oil, used oil filters and used oil containers.

MARRC was incorporated under The Corporations Act of Manitoba on April 1, 1997. It operates in accordance with a Letter of Approval issued by Manitoba Environment on February 26, 1998 under Section 7 of the “Used Oil, Oil Filters and Containers Stewardship Regulation” of the Waste Reduction and Prevention Act.

Further to earlier approvals of 5 year terms, MARRC received a letter of approval dated September 25, 2013, from the Minister of Conservation extending the Stewardship Plan term for an additional five years to December 15, 2017.

On May 1, 2011, the Corporation was also approved to operate the Antifreeze Stewardship Program by the Minister of Conservation. The Antifreeze Stewardship Program commenced operation August 1, 2011. The approval from the Minister of Conservation expires December 31, 2016.

The Corporation derives revenue principally in the form of Environmental Handling Charges (EHCs) applied to the sale or consumption of selected lubricating and antifreeze products in Manitoba. The Corporation’s primary expenses are related to the:

- establishment and operation of a publicly-accessible network of licensed collection facilities for used lubricating and antifreeze products,
- payment of Return Incentives to companies licensed by the province and registered with MARRC to collect used lubricating and antifreeze products and transfer them to approved processors and end-users,
- payment of Processing Incentives to companies licensed by the province and registered with MARRC to recycle used lubricating and antifreeze products, and
- development and distribution of public education materials.

MARRC’s affairs are managed by a six-person Board of Directors drawn from the member companies of MARRC and from other stakeholder organizations, including a Director representing the Antifreeze industry.

SEP 25 2013

Mr. Ron Benson
Executive Director
Manitoba Association for
Resource Recovery Corp.
35 - 1313 Border Street
Winnipeg MB R3H 0X4

Dear Mr. Benson:

I am pleased to issue an Approval to the Manitoba Association for Resource Recovery Corp. (MARRC), for a Used Lubricating Products Stewardship Program. Pursuant to 7(4) of the *Used Oil, Oil Filters and Containers Stewardship Regulation of The Waste Reduction and Prevention (WRAP) Act*, this approval will expire on December 15, 2017. The "Conditions of Approval" are outlined in the attached document.

Since its inception, MARRC has made significant progress in the recovery of automotive fluids, containers and filters. I am pleased to see continued promotion and increased recovery.

MARRC's ongoing and expanding operation is a positive step for environmental protection in Manitoba.

Yours sincerely,

Gord Mackintosh
Minister

Ambassador Program – Calendar of Events for 2014

MARRC employed 3 full-time and some part-time Ambassadors to travel around to various tradeshow and exhibitions in Manitoba for the purpose of enhancing awareness towards improving the recovery of used oil and antifreeze products. Below is a Calendar of Events that MARRC participated in with the Ambassador Program.

JANUARY

11 - 12 MTS Ice Plex		
----------------------	--	--

APRIL

25 - 27 Rodorama		
------------------	--	--

MAY

25 Teddy Bear's Picnic	31 ALS Walk	
------------------------	-------------	--

JUNE

4 - 8 Brandon Exhibition	6 - 8 Transcona Hi Neighbour Festival & Parade	14 Pilot Mound EcoDay
13 - 14 Niverville County Fair & Parade	13 - 14 Lunda Ag Fair & Parade	12 RM of St. Andrews Open House
13 - 22 Wpg. Red River Exhibition	20 - 21 Steinbach Summer in the City	22 Manitoba Oldsmobile Car Club
26 - 28 Dauphin Exhibition	27 - 28 Killarney Summer Fair	28 MacGregor Fair
29 Treherne Fair	30 - 1 Osborne Village Canada Day	30 - 1 Glenboro Fair

JULY

1 Kildonan Park Car Show	4 - 5 Falcon Lake Fun Fest	4 - 6 Portage Exhibition
10 - 12 Carman County Fair	11 - 13 Selkirk Triple S Fair & Rodeo & Parade	12 - 13 St. Pierre Frog Follies & Parade
12 - 13 Minnedosa Fun Fest & Parade	12 Souris Ag Fair	13 Gimli Auto Show
15 Strathclair Fair	17 - 20 Morris Stampede & Parade	19 - 20 Arborg Fair & Parade
18 - 20 Winnipeg Beach Boardwalk Days & Parade	22 - 23 Kids Fringe Festival Downtown Wpg.	23 Elkhorn Ag Fair
24 - 27 Austin Thresherman's Reunion	25 - 27 Altona Sunflower Festival & Parade	

AUGUST

2 - 3 Ponderosa Days & Parade in Cartwright	2 - 4 Gimli Icelandic Festival & Parade	3 River City Rumble Car Show in Winnipeg
9 Gladstone Fair & Parade	8 - 9 Melita Banana Days	9 Melita Mud Bog Derby

Highlights of 2014

Ambassador Program - Partners in Progress!

MARRC participated in over 50 exhibitions, tradeshow and parades this year with almost 10,000 people visiting the MARRC booth to fill out our survey. They received information on recycling used oil and antifreeze products as well as valuable prize giveaways. MARRC also partnered with two other Producer Responsible Organizations (PROs) and distributed their brochures and informational material as well:

Switch the Stat – Responsible for the recycling of used thermostats and mercury switches. Each thermostat has one to four switches, each switch contains 2.5 grams of mercury. Just 1 gram of mercury is enough to contaminate an 8 hectare lake to the point where the fish are inedible for a whole year!

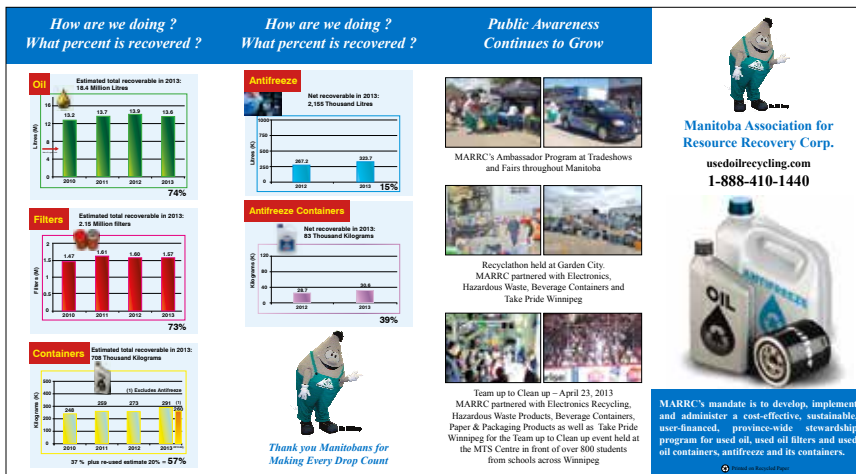

Health Product Stewardship Association (HPSA) – Responsible for recovering medications that are expired or no longer needed and handling of them in a safe and responsible manner before they are disposed of in the grabage or poured down sewers and drains.

**HEALTH PRODUCTS
STEWARDSHIP
ASSOCIATION**

Ambassador Program – Brochures Distributed

The Ambassadors distributed brochures which detail important information about the MARRC Stewardship Program such as what happens to the products once they are collected; where people can take the products throughout Manitoba; our collection progress to date as well some of our communication initiatives.

Lineups at Osborne Village on Canada Day

How to recycle?

Your role in our success is simple.

- Collect the used oil from your vehicle, lawnmower, farm equipment, fishing vessels or other machinery and recycle them at a licensed facility.
- Do not contaminate the oil with other liquids. Solvents, paint thinner, bleaches, antifreeze, gasoline, PCBs, household chemicals, insecticides, herbicides, pesticides, grease or water are not accepted. EcoCentre staff have information on where to take contaminated oil.
- Collect your used oil, filters and containers and recycle them at a licensed facility.
- Collect your used antifreeze and containers and recycle them at a licensed facility.

What happens to the products that are collected?

Used oil can be re-refined into lube oil and other petroleum products. As well it can be used for energy recovery.

Used oil filters contain 85% recyclable metal that becomes steel rebar used in construction.

Used oil and antifreeze containers can be shredded and used in the manufacture of parking lot curbs, fence posts and landscaping ties.

Used antifreeze is shipped to licensed processors and recycled into new antifreeze.

Where can I take the used oil and antifreeze products?

In the City of Winnipeg the licensed depots are as shown on the map below

Winnipeg's Licensed Used Oil Depots

- Unicity - 3615 Portage Avenue
- St. Boniface - Farmer & Bannerman
- Garden City - 2303 McPhillips Ave.
- Transcona - 1519 Regent Avenue
- Fort Garry - McElroy & Kenaston
- Polo Park - 750 St. James Street
- Green for Life - 1090 Kenaston Blvd.
- As Environmental - 1447 Dugald Road
- Midwest Environmental - 1803 India Ave.

In Rural Manitoba the licensed depots are as shown on the map below

Highlights of 2014

Grant Park Recyclathon

MARRC partnered as a key sponsor along with EPRA (Electronics); Product Care (Hazardous Wastes / Paints); Tire Stewardship; Interstate Batteries and Take Pride Winnipeg on October 4 from 10:00 am to 2:00 pm. The event was a huge success with over 1,000 people bringing in used products keeping the recyclers busy. The Recyclathon was advertised in the Winnipeg Free Press and on 680 – CJOB radio the week leading up to the event. Mr. Oil Drop toques and bookmarks were handed out by the Ambassadors.

October 4, 2014 Grant Park Shopping Centre Parking Lot (watch for the signs) 10:00 am to 2:00 pm

In 2013, over 1,000 people dropped off tens of thousands of pounds of non-standard recyclable materials. We ask for your patience as our volunteers help unload your items, so we can have an orderly and safe event.

Items Accepted for Recycling:

By Tire Stewardship Manitoba:

<http://www.tirestewardshipmb.ca/>
Automobile & truck tires
Bicycle tires

By Manitoba Association for Resource Recovery Corp:

<http://www.usedoilrecycling.com/en/mb>
Used oil, used oil filters & used oil containers
Used antifreeze & used antifreeze containers

By Product Care Association:

<http://www.productcare.org/Manitoba>
Paint Products in original containers up to 22 L (5 gal)—
Industrial paint products are not accepted
Paint aerosol containers up to 660 mL (24 oz.)
Compact fluorescent light bulbs
Fluorescent light tubes up to 8 ft in length
NOTE: No other waste products will be accepted by Product Care Association at this event. Other household hazardous waste products can be dropped off at Miller Environmental, 1803 Hekla Avenue, Winnipeg.

By Interstate Batteries:

All lead acid* batteries, including:
Auto, truck, marine & motorcycle batteries
Medical power system & wheelchair batteries
UPS stationary batteries
Alarm system batteries
Gel cell batteries
Telecom system batteries
*batteries must say lead on them or Pb

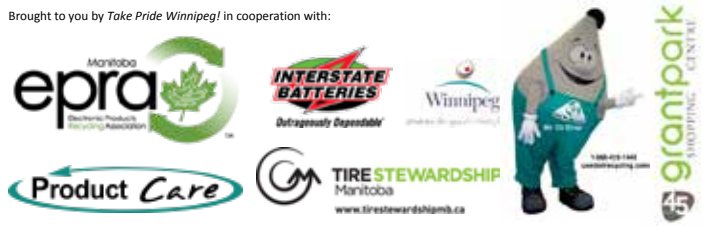

By Electronic Products Recycling Association:

www.recyclemyelectronics.ca/mb
Display devices (TVs, monitors)
Desktop & portable computers
Printers, scanners & fax machines
Computer peripherals (mouse, keyboard, etc.)
Non-cellular phones & answering machines
Home audio/video systems
Home stereo systems or components
Vehicle audio & video systems
Countertop microwave ovens
Personal portable audio/video

Please remember that only the items listed above will be accepted for recycling at this event. Thank you for participating and helping our environment!

For Miller Environmental hours and information on disposal of hazardous waste, please visit <http://www.millergroup.ca/waste-management/hazardous-waste/hazardous-and-industrial-waste-collection/household-hazardous-waste-programs.html>

Team up to Clean up - April 24

MARRC participated with other Producer Responsible Organizations (PROs) namely EPRA (Electronic Recycling), Product Care (Hazardous Waste Products), the Canadian Beverage Container Recycling Association (CBCRA), Multi Material Stewardship Manitoba who handles packaging and printed paper (MMSM) and Take Pride Winnipeg for the Team up to Clean Up event held at the MTS Centre in front of over 1,000 students from schools across Winnipeg.

Sustainability Day at the Assiniboine Park Zoo!

Join us **Thursday, October 2, 2014** from 9:00 a.m. to 5:00 p.m.!

Visit and learn more about the animals at the Zoo, while learning more about how you can care for our environment! Take sustainability beyond the 4Rs!

As part of Sustainability Month, exhibitors will be sharing their ideas on sustainability throughout the Journey to Churchill. Teachers and students can learn how to integrate these ideas into their classrooms, their homes and their neighbourhoods. It is also a great launching point for discussions and class project ideas for the entire school year!

Parents and members of the general public are also welcome to attend and join in the discussion. The exhibits are free with zoo admission. Call 204-927-6000 to order your tickets. Group rates are available!

Visit with amazing animals like this:

Assiniboine Park Zoo Sustainability Day October 2

MARRC partnered with Take Pride Winnipeg and participated with 16 other environmental and sustainability organizations at the Assiniboine Park Zoo where information on recycling used oil products was distributed and discussed at the booth. Bookmarks & various handouts were presented to the visitors along with a chance to win a \$50.00 gift certificate from Canadian Tire.

Highlights of 2014

MARRC rented 2 vans for the Ambassador Program which were wrapped with colourful advertising for Used Oil & Antifreeze Recycling. The vans were at each of the tradeshow, exhibitions & parades and were very well received.

Communication Outreach

- University of Manitoba 4th Year Engineering Students:

MARRC was invited to present a lecture on the Used Oil & Antifreeze Stewardship Program to 4th Year Engineering Students at U of M on November 6. MARRC has been asked to present a follow-up on April 2, 2015.

- Radio Interview

MARRC was a featured guest on a CJOB radio broadcast interview with host Dhalia Kurtz that took place on July 25.

Partnering in the North

MARRC advertised in 4 editions of the First Nation's Voice Magazine, which has a readership circulation of over 100,000. This was done in the June through to September editions advising that MARRC was very interested in assisting communities in the north with recycling their used oil products. With this same ad, MARRC also advertised in the August 26 issue of the Grassroots News which has an established readership of 85,000 readers bi-weekly.

Bursaries awarded for an Eleventh year

Bursaries were awarded to students (\$500 each) qualifying in Environmental Studies at the University of Manitoba, University of Brandon, the University of Winnipeg and Red River Community College.

MARRC Participated with the Northern Association of Community Councils (NACC)

Their 44th Annual tradeshow was held at the Canad Inns Polo Park Hotel in Winnipeg on August 18th through 21st. The NACC represents the interests of 52 northern and remote communities under the jurisdiction of aboriginal leaders and northern affairs. Over 200 delegates from the northern communities federal and provincial affiliates, private sector and non-profit organizations attended.

EcoCentre / Collection Depot network maturing at 83

MARRC's rural EcoCentre network stands at 53 exceeding the minimum network objective established by the province's multi stakeholder Used Oil Management Committee in 1996. The network includes the northern locations of The Pas, Flin Flon and Thompson, plus Cranberry Portage, Grand Rapids, Fisher Branch, Hollow Water, Ashern and Moosehorn. In addition there are 30 other facilities licensed by Manitoba Conservation in place for the collection of used oil and antifreeze products, including 10 locations in Winnipeg (6 of which are Canadian Tire). This includes two new Collection Facilities that were established in the RM of Springfield at the Hillside and Oakwood Transfer Stations, and also an additional licensed Collection Facility is now in place at the Great Canadian Oil Change in Steinbach.

A new initiative is underway for next year to strategically establish new licensed used oil collection depots throughout the Province including more in the City of Winnipeg. Discussions with the City of Winnipeg for a One-Stop-Shop concept are ongoing.

Training and audits promote safety and compliance

MARRC as part of its contractual arrangements with owners/operators of licensed collection facilities, provides initial and recurrent on-site training for management and staff. The training and follow-up audits are designed to promote a safe operation and compliance with each facility's operating license issued by Manitoba Conservation. During 2014, inspections were conducted at almost all of the licensed EcoCentres and collection depots in the Province of Manitoba.

Strategic Planning Session (Sept 8-11)

BCUOMA hosted the combined Strategic Planning Session of SARRC, AUOMA, MARRC, SOGHU & Ontario Directors and Staff.

The session focused on addressing key strategic issues and team building.

Local Initiatives

Several communities throughout Manitoba had their own localized EcoDay events including:

- Dauphin on June 14; Birtle on October 18 (See Photo of Birtle's EcoDay)
- Steinbach on June 11; Pilot Mound on June 14

Those people bringing in used oil and antifreeze products on the designated days were rewarded with prizes and giveaways and an opportunity to enter into a draw for more great prizes.

Plastic Container Audit

MARRC commenced in 2013 and continued in 2014, detailed checks of container bags.

The main purpose was two-fold:

- To eliminate contaminated products
- To determine the amount of antifreeze and windshield washer containers entering into the collection stream.

Collection Activity by Zone

Northern Remote Communities (Accessible by Winter Roads)

MARRC hosted meetings organized through Manitoba Conservation with various Producer Responsible Organizations (PRO) representatives to discuss the prospects of assisting with the recycling of used oil products, derelict cars, tires, batteries, electronics and MMSM products with St. Theresa Point as the Pilot Project. Further discussions with MARRC lead to the licensing, purchasing, transporting and installation of a used oil burner and storage unit for St. Theresa Point.

Manitoba Association for Resource Recovery Corp.

Financial Statements
December 31, 2014

March 11, 2015

Independent Auditor's Report

To the Members of Manitoba Association for Resource Recovery Corp.

We have audited the accompanying financial statements of Manitoba Association for Resource Recovery Corp. which comprise the balance sheet as at December 31, 2014 and the statements of operations, changes in net assets and cash flows for the year then ended, and the related notes including a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Manitoba Association for Resource Recovery Corp. as at December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Manitoba Association for Resource Recovery Corp.

Notes to Financial Statements

December 31, 2014

1 Nature of operations

Manitoba Association for Resource Recovery Corp. (the Corporation) was formed by oil and oil filter first sellers in Manitoba to develop, implement and administer a used lubricating products stewardship program in the province and began operation on January 1, 1997. The Corporation was incorporated as a not-for-profit corporation without share capital under The Corporations Act of Manitoba on April 1, 1997. On February 26, 1998, the Corporation received approval to operate its used lubricating products stewardship program from the Minister of Environment, Province of Manitoba. On May 1, 2011, the Corporation was also approved to operate its antifreeze stewardship program by the Minister of Conservation, Province of Manitoba. The antifreeze stewardship program began active operations on August 1, 2011.

On September 25, 2013, the Corporation received approval to continue to operate the used lubricating products stewardship program until December 15, 2017. The current antifreeze stewardship program expires December 31, 2016.

As a non-profit corporation, no provision for corporate income taxes has been made in these financial statements pursuant to paragraph 149(1)(l) of the Income Tax Act.

2 Basis of presentation

These financial statements are prepared in accordance with Canadian accounting standards for not-for-profit organizations (ASNPO).

3 Summary of significant accounting policies

Fund accounting

The accounts of the Corporation are maintained in accordance with the principles of "fund accounting". Fund accounting is a procedure whereby a self-balancing group of accounts is provided for each accounting fund established by the Corporation.

For financial reporting purposes, the accounts have been classified into several funds. The activities carried out by each fund are as follows:

- Used Lubricating Products Stewardship Program - reports funds for the operations of the used lubricating products stewardship program.
- Antifreeze Stewardship Program - reports funds for the operations of the antifreeze stewardship program.
- Invested in Capital Assets - reports the funds for the purchase of capital assets used in the operations of the Corporation.

Manitoba Association for Resource Recovery Corp.

Notes to Financial Statements

December 31, 2014

Significant accounting policies are as follows:

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and cash and cash equivalents held at banking institutions.

Investments

Investments consist of Guaranteed Investment Certificates (GICs) and equity instruments. Investments that are intended to be held or that have maturity dates under a year are deemed to be short-term investments, with all others classified as long-term investments. Unrealized gains and losses are included as investment income in the statement of operations. Purchase and sales are recognized using trade date accounting.

Capital assets

Capital assets are carried at acquisition cost less accumulated amortization. Amortization of office furnishings, equipment and leaseholds is calculated on a straight-line basis at an annual rate of 20% based on the estimated useful lives of these assets. One-half of the annual rates are charged in the year of acquisition.

Revenue recognition

The Corporation follows the deferral method of accounting for revenues. Revenue from environmental handling charges is recognized in the year for which suppliers and end-users assess it, as regulated by the Used Oil, Oil Filters and Containers Stewardship Regulation and by the Household Hazardous Material and Prescribed Material Stewardship Regulation of The Waste Reduction and Prevention Act. The one-time membership fees are recorded as revenue when the participating companies join the Corporation.

Dividend and interest income from investments and cash and cash equivalents is recognized when earned and is recorded as investment income in the statement of operations. Other income is recognized when earned.

Return and processing incentives

The return and processing incentives are recognized as an expense in the year to which the claim relates.

Manitoba Association for Resource Recovery Corp.

Notes to Financial Statements

December 31, 2014

Use of estimates

The preparation of financial statements in conformity with Canadian ASNPO requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

Financial instruments

Financial assets and financial liabilities are initially recognized at fair value and subsequently measured at amortized cost, except for investments in equity instruments that are quoted in an active market, which are subsequently measured at fair value. Changes in fair value are recognized in the statement of operations in the year incurred.

Financial assets measured at amortized cost include cash and cash equivalents, GIC investments, environmental handling charges receivable and accrued interest and other receivables.

Financial liabilities measured at amortized cost include return and processing incentives payable and accounts payable and accrued liabilities.

Financial assets are tested for impairment at the end of each reporting period when there are indications that the assets may be impaired.

Manitoba Association for Resource Recovery Corp.

Notes to Financial Statements

December 31, 2014

4 Cash and cash equivalents

Cash and cash equivalents consist of:

	2014 \$	2013 \$
Cash	1,085,091	623,936

			<u>1,332,910</u>	<u>1,820,658</u>

During the year, certain GICs matured and were reinvested in a money market mutual fund, which is included in cash and cash equivalents.

Manitoba Association for Resource Recovery Corp.

Notes to Financial Statements

December 31, 2014

6 Government remittances

Government remittances consist of amounts required to be paid to government authorities and are recognized when the amounts become due. In respect of government remittances, \$32,259 (2013 - \$48,063) is included within accounts payable and accrued liabilities.

7 Commitments

Operating lease

The annual minimum rental for leased premises under a lease to February 28, 2018 is as follows:

	\$
Fiscal year ending December 31, 2015	43,197
2016	43,362
2017	43,362
2018	7,227

EcoCentres

The Corporation has entered into two-year renewal agreements with 63 EcoCentres and licensed collection facilities that were established to provide no-cost drop-off centres for used oil and antifreeze materials.

As part of its contractual agreement with each EcoCentre owner-operator, the Corporation is committed to provide annual operating support until July 31, 2016. The operating support payments for the EcoCentres currently in operation are estimated to be as follows:

	\$
Fiscal year ending December 31, 2015	200,000
2016	117,000

Manitoba Association for Resource Recovery Corp.

Manitoba Association for Resource Recovery Corp.

Notes to Financial Statements

December 31, 2014

11 Financial instruments

The Corporation manages risk and risk exposures by applying policies approved by the Board of Directors.

Credit risk

Credit risk arises from the potential that a counterparty will fail to perform its obligations. The Corporation is exposed to credit risk through its environmental handling charges receivable. The risk is minimized due to the large registrant base.

Interest rate risk

Interest rate risk refers to the risk that a financial instrument or cash flows associated with the instrument will fluctuate due to the changes in interest rates. The Corporation's exposure to interest rate risk pertains to interest-bearing, short-term and long-term investments, which are subject to future changes in interest rates.

Other price risk

The Corporation's other price risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. The Corporation's exposure to other price risk pertains to its equity investments which are affected by the changes in market prices.

Liquidity risk

Liquidity risk is the risk that the Corporation will encounter difficulty in meeting its financial obligations associated with financial liabilities in full. A range of alternatives is available to the Corporation including cash flow provided by operations, debt or a combination thereof.

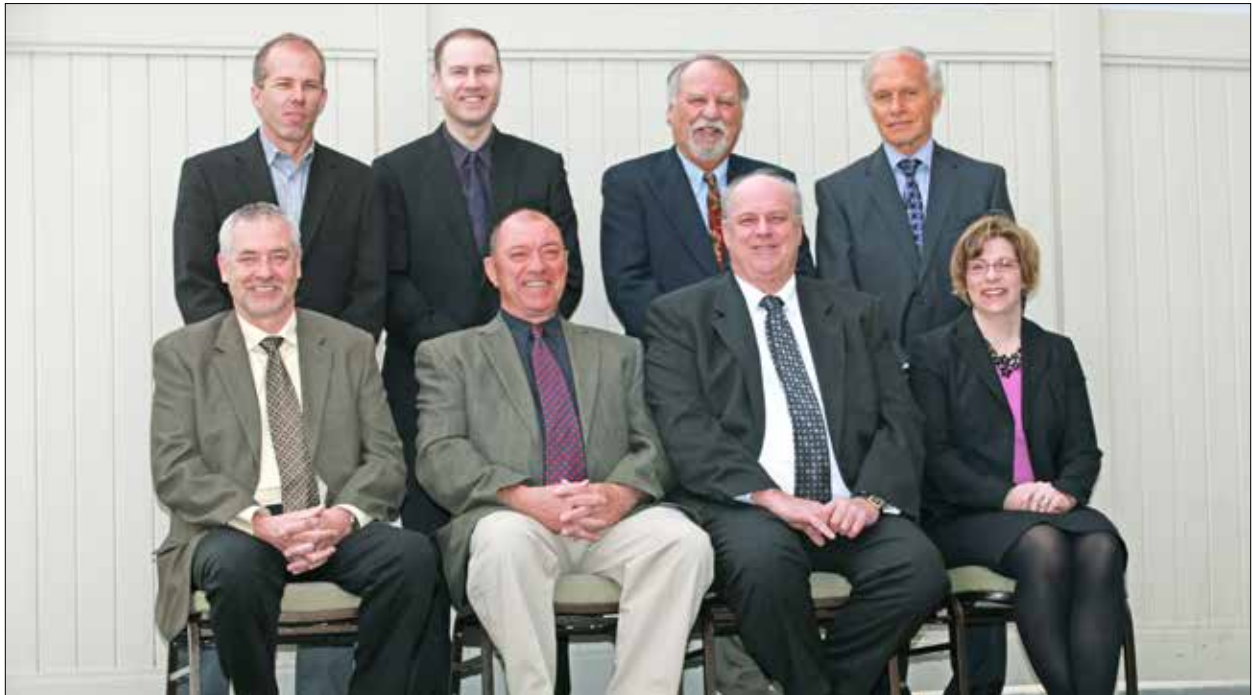

12 Comparative figures

Certain of the prior year's figures have been reclassified to conform to the current year's financial statement presentation.
